

Trailing suction hopper dredger

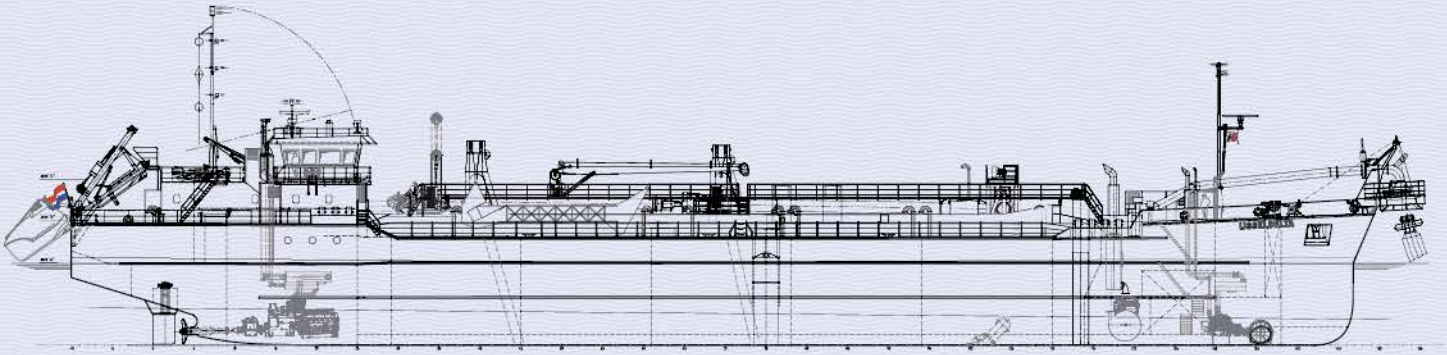

IJSSELDELTA

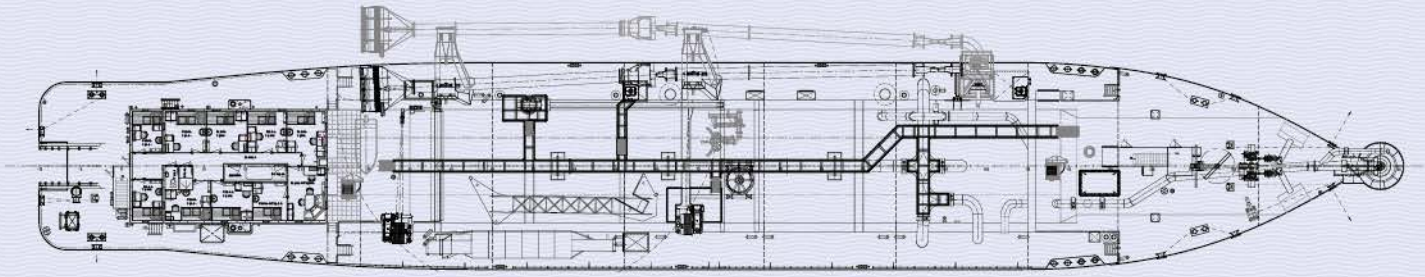

VAN DER KAMP

Trailing suction hopper dredger

IJSSELDELTA

Length l.l.:
90,35 metres

Length o.a.:
99,43 metres

Breadth:
15,07 metres

Draught:
6,00 metres

Hopper capacity:
3.518 m^3

Port suction pipe:
Ø 800 mm. dredge pump,
drive unit 1.014 KW
maximum dredging depth
34 metres

Discharge system by means of:
A. bottom slides
B. low discharge
C. shore delivery unit, maximum 3.054 KW

Propulsion:
twin screw 2.014 KW

Additional equipment:
two spud poles

Speed:
empty 12 miles and loaded 10 miles/hour

Accomodation:
13 persons
